

Setup an user account in PatentScout

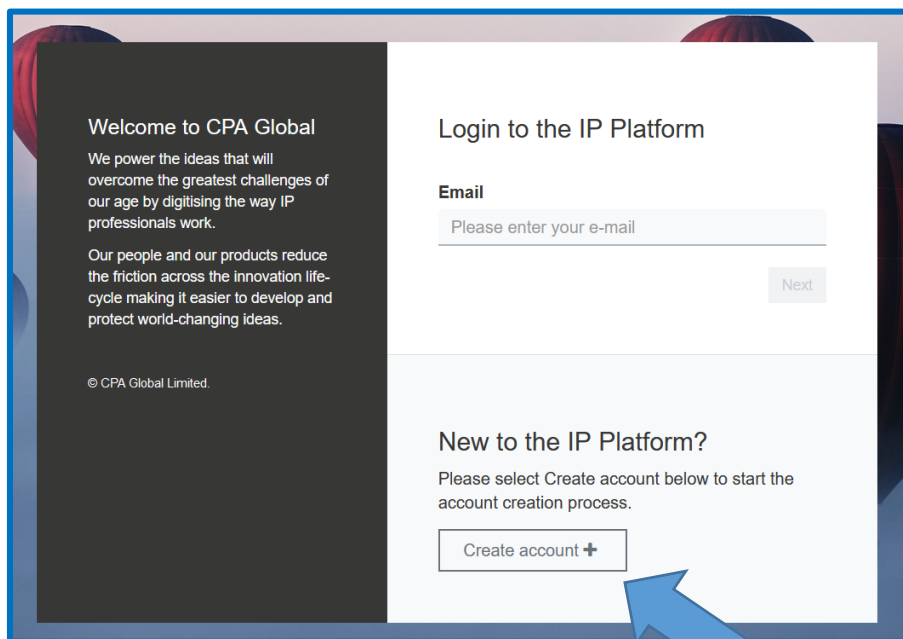

Innography's PatentScout™ delivers critical patent data from a private, web-based platform. Access patent data where needed in your organization, without the loss of privacy and search logging associated with free patent search tools.

To access PatentScout, follow this manual to create an user account steps by steps.

To setup an user account of PatentScout, please follow below steps:

1. Click “CPA SSO”

2. Click “Create account+”

Registration Options

Existing Organization

Select the below option when your colleagues are already using apps in the IP Platform and you have a registration code

Create account in existing organization

New Individual Account

Select the below option when you and your organization are new to the IP Platform.

Create new individual account

3. Select "Create new individual account"
